AVFP2

AVFP2_EN

Combination of an automatic vertical strapping and turntable wrapping machine the model AVFP2, is made to strap vertically products that must be pressed and well fixed during the transport and/or storage. The film-carrier incorporates a powered film pre-stretching unit to guarantee a minimum

film consumption and as well as a film breaking control system. Thanks to the welding & cutting device the cycle of this machine completely automatic. All the operating cycles (only straps, only wraps or both) of the machines and the individual devices may be programmed through a single operator panel.
